February 25, 2019

Dear Clark Middle School Families,

Here at Clark Middle School and San Diego Unified, we believe in communicating openly with our students, parents and staff about incidents that affect our schools. Some of you may already be aware, but I wanted to reach out and inform the Clark Middle School community of heat-related issues we experienced on campus this month.

During last month's record cold snap in San Diego, heat went down in the upper 200 building and impacted 15 classrooms.

While the district investigated the problem, our first priority was to offer students a warm and habitable place to learn. We offered all impacted classrooms portable heaters and the option to relocate into other classrooms where heat was working.

After some troubleshooting, district electricians were able to restore heat to all of our classrooms, but if you have any questions or concerns, please do not hesitate to contact me at nhendricks@sandi.net.

Sincerely,

Nicole Hendricks
Principal
Clark Middle School
